

PROFESSIONAL STYLE

WPD29

Seamless welded design provides a flawless appearance, finished in marine-grade 316 stainless steel

27" deep hood is designed to handle the heat and size of outdoor gas grills

Powerful yet quiet internal blower (specially designed for outdoor use) and external blowers feature HVI certified performance

Fully enclosed design uses baffle filters with an extra deep bottom cover for unsurpassed capture

Halogen lamps provide brilliant surface lighting

Marine-grade controls resist the effects of extreme heat and moisture

Heat Sentry™ is a smart feature that detects excessive heat and adjusts speed to high automatically

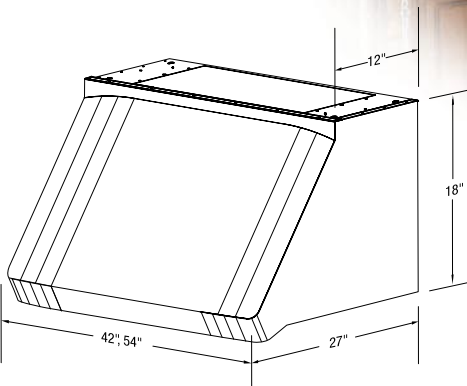

Marine-grade stainless steel soffit flue and backsplash (optional, see p. 50)

Hood cover is recommended to protect the finish in harsh environments like saltwater coastal areas (optional)

P12D, 1200 CFM Internal Blower. Specially treated to resist corrosion.

For covered patio or lanai areas, now you can truly enjoy your outdoor kitchen with a range hood capable of clearing the air.
